KESINO

COMPANY INTRODUCING

KESINO Is a modern high-tech enterprise focusing on the console field, relying on perfect supply chain management, to provide customers with professional customized solutions and after-sales support.

The products have been sold to all over the country and overseas projects, and are committed to serving more than 180 industry fields such as public security, smart city, airport, transportation, petrochemical, power, finance, radio and television, communications, government and new energy.

KESINO company covers an area of 130,000 square meters, set up 1200 square meters of large-scale science fiction exhibition hall, Has introduced a number of high precision processing equipment, automatic AMADA laser cutting machine, AMADA CNC turret punching machine, AMADA CNC bending machine, automatic welding robot and a variety of processing equipment, and the construction of sheet metal spraying workshop and processing workshop.

PRODUCT ADVANTAGE

Brand precipitation, strength guarantee

Twenty years of industry experience, 130,000 square meters of manufacturing base, strong manufacturing capacity, to ensure product production worry-free.

Technical texture, quality assurance

Full of innovative technology and quality product design, the latest product control system, so that quality from the inside out at your fingertips.

The whole process of environmental protection

From raw materials to each processing link, environmentally friendly materials and processes are used, veritable aldehyde-free, non-toxic products, protect health and ensure safe use.

High strength frame system

The use of advanced high-strength aviation aluminum to build a durable frame system, the load-bearing strength and deformation resistance than the traditional rice more than 2 times, to ensure that the product can be used for more than 10 years.

CONTROL ROOM CONSOLE PROVIDER

KESINO Through ISO9001, ISO14001, ISO27001 and other management systems, products through CMA, SGS, CE, ROHS, BIFMA, and other international certification.

专利证书 | SGS检测认证 | CMA检测认证 | ISO9001:2008

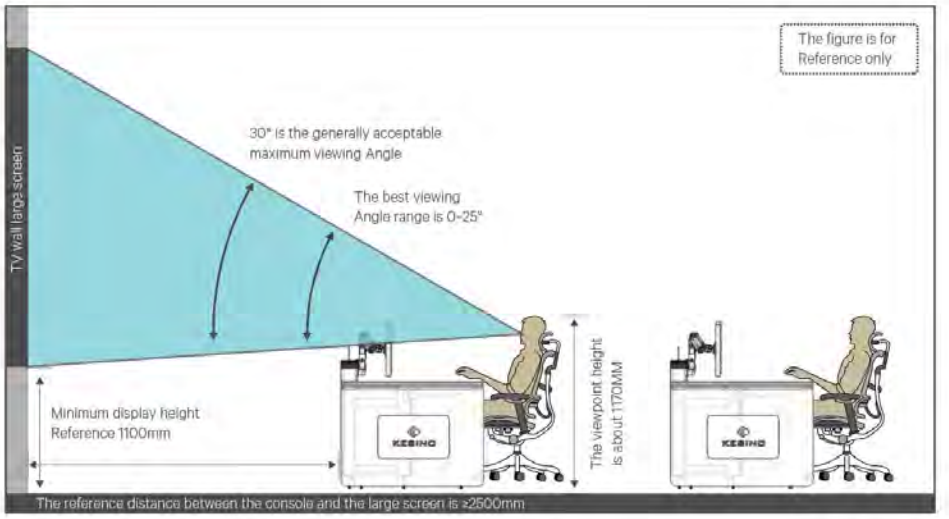
环境管理体系 | BIFMA认证 | CE认证 | ROHS认证

Brand cooperation

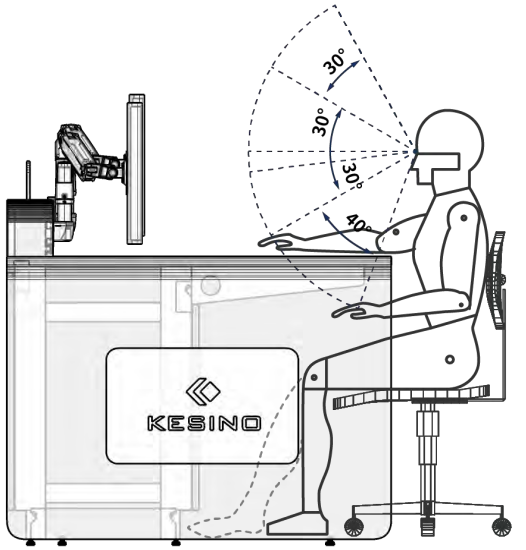
kesino console, widely praised by customers, a number of Fortune 500 enterprises to provide professional customized solutions and after-sales support

kesino follows the world recognized standards, fully considers the visual distance, perspective, equipment and other factors, to achieve the perfect unity of engineering, medicine, design, with better comfort.

- Take into account the rationality of the operator's up and down, left and right line of sight distance.
- The operating distance is designed according to reasonable comfortable distance.
- Help customers analyze the best viewing distance for the large screen and the reasonable arrangement of the console to ensure that the staff can see the full screen.



Visual relationship between console and large screen (for reference only)



The console provides the ideal workspace for the user (for reference only)

Visual ergonomic design
Efficient and comfortable office

KESINO applies ergonomics to optimize the equipment and functions based on the basic functions and performance of the original design of the console according to the scope of the staff's movements and activities, the physiological structure of the human body, psychological conditions, ways of thinking, etc., so that the workers are very convenient and comfortable in both visit and use.

KCA-23

* High strength 6063-T5 aluminum profile frame system.
*E0 Environmental protection HPL decorative panel.
* Professional large capacity strong and weak electrical cable management.
* Aluminum screen + luminous acrylic plate.
* Equipped with ground atmosphere lighting system.
* Large size of bottom cabinet space.
* Modular quick-pack design.
* Natural cooling channel design.
* Custom side panel light up logo.
* Surface friendly powder coating.

KCA-23-P

* High strength 6063-T5 aluminum profile frame system.
*E0 Environmental protection HPL decorative panel.
* Professional large capacity strong and weak electrical cable management.
* Equipped with ground atmosphere lighting system.
* Large size of bottom cabinet space.
* Modular quick-pack design.
* Natural cooling channel design.
* Custom side panel light up logo.
* Surface friendly powder coating.
